

# National Board Foundations for BIE Educators

This one-day workshop is designed for educators who work in Bureau of Indian Education (BIE) Schools as they embark on the National Board Certification process for the 2015-2016 cycle of certification. Working alongside other BIE educators and National Board Certified Teachers in Arizona, participants will engage in reflective dialogue and activities that provide an introduction to the National Board Certification process and materials set forth by the National Board for Professional Teaching Standards (NBPTS). A specific focus will be placed on preparation for engaging with Component 1 to help participants prepare for the assessment center experience.

***Event registration is free!***
