The Disability Action Center NW (DAC) is a non-profit community partnership. They promote independence and equality for individuals with disabilities at the community, state, and national levels. The DAC's mission is to remove physical, communication and attitude barriers for individuals with disabilities to promote independence. The center provides peer support, living skills, technology services, in-home support services, information, and referral.

The Idaho Assistive Technology Project (IATP) is a federally funded program administered by the Center on Disabilities and Human Development at the University of Idaho. Our goal is to increase the availability of assistive technology devices and services for older persons and Idahoans with disabilities.

Idaho Assistive Technology's Goal is to help Idahoans with disabilities acquire the assistive technology they need to live more independent lives.

We provide information and assistance, a used equipment exchange, an alternative financing program, assistive technology support for schools, and training events across Idaho. Please contact us at 1-800-432-8324 for more information!

Current News and Events

Tools for Life Fair back to Boise in 2010!

The Tools for Life: Secondary Transition and Technology Fair will be returning to Boise March 1 & 2, 2010. Tools for Life is for anyone who has an interest in supporting individuals with disabilities as they transition from school to life. This includes secondary educators, post-secondary educators, special educators, therapists, counselors, service providers, job developers, other rehabilitation specialists, and especially high school students with disabilities and their families. To register download the Registration/ Stipend/ Liability Waiver form; Would you like to present or have an exhibit table at the Fair?

Computers for Kids Helps Supply Computers to Children with Disabilities

The IATP is working with Computers for Kids of Idaho to offer computers to students with disabilities, grades K thru 14. Two programs are available in this collaboration: a) Computers are available to students for home use and, b) Computers are available to rural school districts to use with students with special needs. School districts qualify if they meet the definition of "rural" as defined in section 33-319 of Idaho law entitled, "Rural School Districts and Public Charter Schools Defined."

Idaho AT4ALL

is a service from the Idaho Assistive Technology Reutilization Project, in partnership with the Living Independence Network Corporation (LINC) and several other participating programs.

Idaho AT4ALL is brought to you by the Idaho Assistive Technology Reutilization Project. There are a number of state agencies, private businesses, and lending programs along with individuals that are listing items for sale, giveaway, demonstration, or loan.
